TRCC Meeting Minutes for November, 2009

Call to Order: The meeting was called to order by Bill Barnitz promptly at 7:29 PM.

Prospective members: Oscar Armenta, Marty A. VanDeVen, Norman Cecil, David Davis, Larry Marcus. All were voted in. Congratulations.

The Secretary's and Treasurer's reports were approved by the membership.

Old Business: Al Mosher asked for workers for the November Fly-in. Workers will receive a new club shirt. Al also stated that there will be a work party on Sunday, Nov 22nd to prepare the field for the fly-in.

New Business: Mike McCann discussed the "Watts Up" all electric fly-in coming in February. Flyers can be viewed in the TRCC website: www.tucsonrcclub.org.

Safety Briefing: Be very careful after you install your battery in an electric airplane. The prop and motor are hot at this time. It is very easy to get injured if you are not paying attention. Suggestion was made to install an on/off switch in system if possible. To prevent corrosion between electrical connections, it was suggested that you apply Deoxit to the connections.

Health and Welfare: Roy Iley is in St. Josephs hospital with a very serious case of Pneumonia. He is in the intensive care unit. He is recovering very slowly and cannot have visitors. Our prayers are with him and his family. Joe Bryant is still in lots of pain and having a rough time of it. You and yours are also in our prayers.

Announcements: Rich Chitty and gang have installed a new ramada next to the trailer. Great job guys. He thanked his helpers: Lloyd Palmer, Terry Hummingbird, David Schaffer, Ken Egnatovich and Ken McDaniel. Bill Barnitz announced that he will be the new club President, as Roy Iley is stepping down. Thanks for taking on the big job Bill.

Show and Tell: Craig Blackman had a Seawind airplane that he will power with electric.

Steven Meyer had an F-16 China model in which he will use an electric ducted fan. I think I see a trend here.

Raffle Drawing: Two \$25.00 gift certificates from the Hobby Barn and 1 gallon of glow fuel.

Adjournment: Meeting was adjourned about 8:37 PM. Minutes submitted by Mike McCann.

Instant Gap Filler

To fill small gaps, instead of filling with the usual putties and waiting for them to dry, place some medium CA in the gap. Then place a small amount of baking soda on and watch it set before your eyes. It is the strongest fill I have come across and is instant.

from the Beachmasters RC Club, Ocean Park, Washington

The TRCC Board Members and Chuck and Jerri Brooks (your NOISE editor/s) would like to wish you and yours a **VERY MERRY CHRISTMAS AND A HAPPY NEW YEAR!!!!**
